

Design and Thinking Section

Try to design a facility or product which makes use of parallelogram(s). Then, outline one of the parallelogram(s) in red colour.

(a) My facility / product of the title:

Floating shelves.

(b) The function of parallelogram(s) in my design:

These are floating shelves that support the decoration on the wall.

Example

The facility / product of the title:

Handrail

The function of parallelogram(s):

Support the entire railing, and it looks more artistic.

It is a decorative railing that supports the decoration, and it's good design
